

**Back Lab Technician - Finish Position
Job Description**

Department: Laboratory
Reports to: Lab Manager
FLSA Status: Non-Exempt

Essential Duties and Responsibilities

Include the following – other duties may be assigned.

Optical Laboratory Technicians create eyeglass lenses according to prescriptions and fit them into frames.

The technicians must pay close attention to detail in order to correctly identify the lens and frame specifications from the prescription. They select and mark proper lens blanks according to specification using lens measuring equipment.

Technicians must possess a good eye for detail and manual dexterity due to the complexity of the work. They would also possess excellent computer skills necessary for the automated systems used by the optical lab.
